Yachttype / Type of Yachts	möglichst 10 baugleiche Yachten/ if possible ten identical yachts	· if possible go for a single design match fleet with 10 yachts of same type and age. · The charter boats need to be as close as possible to identical. · When making the proforma reservation this needs to be emphasized with attention to sail area etc. and even details such as cushions in the outside area should be adressed.

All yachts have to be equipped with genakers of identical sizes and have to be able that those genakers can be rigged.	· Go for yachts which are equipped to sail with genakers / blisters.
		· If appointing a European yacht charter company to organise a "match fleet" but who will subcontract out to one or more local charter companies, ensure they check each boat so that we all have the same as far as possible and we avoid the frustration over sail type and blister / spinnaker and none adequate riggs to set a blister / spinnaker.
Yachteigner Yacht Owners	ist bekannt zu geben / should be shown in the proposal / offer	· Get the yachts from the big charter companies / owners directly instead from brokers which do not own the yachts by themselves and looking for provisions only. · Get the yachts from one company only and not from different sources.
